So yet another reason I love ShoBaku has appeared. What other manga gives itself its own music? It just gives this story even so much more of a personality. The song is original as far as I can tell, though maybe someone who knows more than a few Atee songs from the 80s will tell me it's a real song.

Also, the two guys at the beginning of the story were speaking in *roumaj*. Simply put, they were speaking in Japanese, but the Japanese was being spelled in English letters.

I'll include the original pages on this and the next page for the people who might be interested in stuff like that.
